Westfield London Shopping Centre

WHITE CITY/SHEPHERDS BUSH, LONDON

Client

The Westfield Group has interests in and operates one of the world's largest shopping centre portfolios. The global portfolio has 119 high quality regional shopping centres in Australia, New Zealand, the United States and United Kingdom valued in excess of \$58 billion, with approximately 24,000 retailers in 10.5 million square metres of retail space

Project

Beneath a spectacular, undulating glass roof, the progressive, bright and sleek design of Westfield encompasses 5 anchor stores, more than 265 speciality shops, over 40 places to dine and a state of the art 14 screen cinema, with a retail floor area of 150,000m² (1,615m ft²). To demonstrate their commitment to their staff, property, tenants, customers and the surrounding environments, Westfield realises the importance of a preventative integrated pest management service.

"Safeguard Pest Control are a reliable and very efficient company. They are always at hand to offer advice and valuable information as and when required. They have worked closely with Westfield to come up with the most cost effective solutions without comprising the level of service required"

Shaun Turnbull
Facilities Manager

The Solution

Observations

Safeguard is the preferred contractor to deliver this service for Westfield, not just to the retail units, but also for management suites, reception areas, offices, meeting rooms, main kitchen and catering areas supported by 24 hours per day 365 days a year callout and repair service.

To ensure we meet the high standards and specifications determined by Westfield we carry out weekly routine inspections to the entire main site, as well as the external perimeter, to monitor and inspect the various areas for any activity. Combined with this we also conduct management programmes against pest birds, such as bird point and netting systems, which prevents them from roosting or nesting on site.

Completion

Safeguard are proud to provide a highly comprehensive, auditable integrated pest management system in co-operation with Westfield's staff to ensure the highest level of prevention of the many pest species in London.
